INDEX.

ABNORMAL earth currents, 803
Accident to an electrician, 167
„ fatal, on the City and South London Railway, 752, 775
Accidents, Electric railroad, in the United States, 774
Accumulator cars for Berlin, 644
„ „ in Paris, 201
„ „ in Rome, 359
Accumulators, Chemical theory of lead, by M. G. Darrieus, 724, 760, 794
Action of heat on permanent magnets, 324
A "have," 701
Air gap, A motor without an, 625,
Aitkin, J. H., on How electric signals on steam railroads are acted on by electric railways, 254
Alternate current dynamo, The Pyke and Harris, 611
„ currents, 688
„ currents, Polyphased, by Rankin Kennedy, 6
„ currents, Some experimental investigations of, by Alexander Siemens, paper read before the Institution of Electrical Engineers, 286
„ currents, Wiring for, 657
„ current working, Condensers in, 282
Alternating circuits, Wattmeter readings on, 473
„ and continuous current Weston direct reading voltmeter, 7
„ current influence machines, 603
„ currents, Best frequency for, 677
„ currents in any circuit, Measurement of the power developed by, by Carl Hering, 60, 92
„ „ Distribution of power by, 167
„ „ Distribution of power by, Notes on, by W. B. Tobey, 173
„ „ A Fundamental patent for, 452
„ „ of high tension and high frequency, Does Ohm's law hold good for? 626
„ „ Instrument for determining the phase of, in transformers and branch circuits, 351
„ „ Measurement of the lag between, 532
„ „ for medical purposes, 720
„ „ Recent work with, 689
„ „ and transformers, Electrical distribution by, by Rankin Kennedy, 506, 568, 631, 661
„ direct current transformation, 419
„ motor system, three-phase, Inventor of the, 195
Alternators, Electrostatic, by H. T. Muras, 764
„ Inductor, 625
Altruistic effects of electric power, 594
Aluminium in Austria, 702
„ (pure), Durability of, 529
„ Manufacture and industrial value of, 440
„ Price of, 511
„ works, New, in Germany, 511
Amalgamation of electric companies in New York, 229, 325, 646
„ of the National and the Sheffield Telephone Companies, 359
American Elmore Company, 154
„ horse market, 102
„ Institute of Electrical Engineers, 570, 679, 741
American view of the future of the telephone industry, 407
Ammeter, Brush's hot strip, 192
Ammeters and voltmeters, Hartmann and Braun's recording, 582
Another proposed amalgamation in America, 326
Antidote for mercurial poisoning, by Legh S. Powell, 598, 604
Appleyard Rollo, On the electrical conductivity of the earth, 316
„ „ On Thomson and Varley slide resistances, 286
Application of electricity to hoisting-machinery, by Reg. Bolton, A.M.I.C.E., 579
„ (new) of the electric light to surgery, 689
„ (recent) of electricity to the manufacture of white lead, 510
Arbitration, Labour questions and, 119
Arcas silver plating process, 167
Arc lamp, "Crown," 20
„ „ Flat carbon, 702
Arc lamps, Energy consumed in, under certain conditions, by F. B. Widmayer, 550
Arc lighting in America, Cost of, 656
„ light wiring, Economy in, by C. P. Mackie, 481
„ „ „ „ W. B. Rommel, 479, 601
„ „ „ „ S. H. Sharpsteen, 449, 531
„ „ „ „ C. G. Young, 480
Arcs, Normal and hissing, by J. R. Cravath, 467
Arc welding (Electric) invented by De Meritens in 1881, by A. M. Tanner, 481
Armature burn-outs, 560
„ defects, Simple method of locating, 21
Arrhenius' and Van't Hoff's theories, Some difficulties in, 659
Artificial globular lightning, 324
Artist to the engineer, by Sara King Wiley, 450
Atmosphere of mines, Testing the, 345
Atmospheric electricity at high altitudes, 753
Attempt to blow up a tramcar, 604
Attraction of two discs separated by a dielectric, 802
Australian notes, 58, 126, 365, 511
Automatic Postal call box, 294
„ and multiplex telegraphy, 156
Award, 741
Ayrton, Prof., W. E., Dinner and testimonial to, 630
„ W. E., inaugural address of, on "Electrotechnics," before the Institution of Electrical Engineers, 140
„ and Mather's D'Arsonval galvanometer, 788
„ W. E., on The suspension and construction of the coil of a D'Arsonval galvanometer, 64
Azores, the proposed cable to the, 231, 420, 454, 511, 550, 605, 752, 774, 785

BAHAMAS-FLORIDA cable, 199
Balloon Society, 454, 739
Bare underground conductors, 530
Barstow, W. S., on the Lighting of residence districts, 62
Batteries (Gas), Electromotive force of, 520
„ Heating secondary, 482
Batteries (primary), Economy in, employed for generating power, by A. E. Kennelly, 562
„ (secondary), On the cause of the changes of electromotive force in, by J. H. Gladstone and W. H. Hibbert, 672, 708
„ (secondary), Some points connected with the electromotive force of, by Dr. J. H. Gladstone and W. Hibbert, 773
„ Storage, 263
Battery, Marson, 158
„ New primary, 393
„ „ „ Prize for, 542
„ Pondroux, 700
„ (secondary), Does lead absorb hydrogen in? 529
„ (secondary), Jacobi works an electric motor in the year 1870, by means of a, by A. M. Tanner, 601
„ (secondary), Researches on the alleged occlusion of hydrogen by lead in, 592
„ (storage), Decision, Full text of the recent, 580
„ (storage), litigation, 603
„ „ Locomotive, 505
Bazaar attractions, 644
„ at St. George's Hall, Bradford, 678
Behaviour of insulating materials under the action of high potential differences, by H. Bleckley Bourne, and W. Fox Bourne, 371
Bell Telephone Company, 677
Benardos system of electric welding, 21, 453
Beresford, Major C. F. C., R.E., on The telephone at home and in the field, 668, 747
Best frequency for alternating currents, 676
Birmingham Mason College Engineering Society, 421
Blunders in telegrams, 154
Board of Trade overhead wire regulations, 499
„ „ unit, 645
Boat *Audace*, A new submarine vessel, 421
Bolton, Reg., A.M.I.C.E., on Application of electricity to hoisting machinery, 579
Booth, W. H., on Figures for electric light production, 415, 446, 502, 662, 758
„ W. H., on The economy of condensing engines over-rated, 787
Bourne, H. Bleckley, and W. Fox, on The behaviour of insulating materials under the action of high potential differences, 371
Bradford electricity supply, 200, 231, 623, 730, 775, 803
Branch circuits, Resistance and self-induction of, 530
Bremen electric tramway, 695, 756
Bressia prize, 45
British Association for the Advancement of Science, 699
Brillié electrical energy meter, 533
British Insulated Wire Company, 582
Brooks, E. E., on An experimental study of the stratified discharge, 411
Brush's hot strip ammeter, 192
Budapest, Coronation jubilee, Electricity at, 787
Business notices, 12, 42, 71, 104, 136, 168, 202, 233, 264, 295, 328, 361, 394, 422, 457, 484, 513, 543, 573, 606, 648, 680, 704, 742, 775, 806

CABLE—
in Australia, Proposed new,

CABLE—*continued.*
to the Azores, Proposed new, 231, 420, 454, 511, 550, 605, 752, 774, 785
Bahamas-Florida, 199
Breakdown on the Lerwick telegraph, 294
Fast-speed working of submarine cables of moderate length, by P. Chr. Dresing, 130
French Cable Telegraph Company's new, 645
immense submarine, An, 508, 644
Lisbon-Azores, 231, 420, 454, 511, 550, 605 752, 774, 785
Lundy Island, wanted, 262
New Pacific, 294
„ telephone, 359
„ Zealand and Australia, between, 804
Proposed, to Japan, 294
Proposed Pacific, 249, 294
Railways and electric railways in the metropolis, 612, 640, 669
Ship, Delay of a, 483
Soundings, Pacific, 803
Specification of electric light, 280
Steamer, Accident to a, 644
Subaqueous, in Switzerland, 327
Submarine, An immense, 508, 644
„ to Japan, 482
„ in Russia, 511
„ in time of war, 345
„ of the world; 346, 602
Telephone, New, 359
Why cable and not electricity? 26

Calculation of conductors, 785
„ of the section of feeders supplying centres with constant potential, 754
Canard (?) A, about Mr. Edison, 217
Candidate, New, for Parliamentary honours, 643
Cassier's Engineering Magazine, 46
Cause of the changes of electromotive force in secondary batteries, by J. H. Gladstone and W. Hibbert, 672, 708
Caustic soda, Production of, by electrolytic method, 111
Caution, 359
Cazal's electrical railway, patented in France in 1864, 376
Celluloid, Electricity in the manufacture of, 593
Central London Railway, 230, 804

CENTRAL STATIONS—
Bradford, 200, 231, 623, 730, 775, 803
in Europe, 167
at Fiume, 191
Manchester, 419
Practice, 89
Regent's Park, 542
Transmission of power from a, 49
Westminster Electric Lighting Corporation, A supply station of the, 353

Cerebral radiation, by Prof. Houston, 719
Changes of electromotive force in secondary batteries, Cause of, by J. H. Gladstone and W. Hibbert, 672, 708
„ of electromotive force, volume and temperature by mixing electrolytes, 347
Chatham electric lighting accident, 311
Chemical equilibrium in mixed electrolytes, 565
„ theory of lead accumulators, by M. G. Darrieus, 724, 760, 794
